## Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2013 - December 31, 2013

Filing Confirmation Number: 0006094900

Filing Deadline: January 15, 2014

FRN: 0014045504

Filing Date: 01/10/2014 02:36 PM

### General Report Information

#### Type of Company

Service Provider

#### De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

#### Company Information

Company Name: Van Buren Wireless, Inc.

Brand Names: iWireless

PO Box: 430

Street Address: 617 First St.

City: Keosauqua

State: IA

Zip Code: 52565

Contact Name: Kevin Hranicka

Contact Phone: (319) 293-3187

Contact Fax:

Contact Email: hranicka@netins.net

#### Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? Yes

Agent Name: Blooston Mordkofsky Dickens Duffy & Prendergast, LLP

PO Box:

Street Address: 2120 L Street, NW Suite 300

City: Washington

State: DC

Contact Name: D. Cary Mitchell  
Contact Phone: (202) 828-5538  
Contact Fax:  
Contact Email: cary@bloostonlaw.com

### Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

### Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? No

Website address:

Explain: Van Buren Wireless, Inc. (the "Company") is a small rural service provider that provides service in conjunction with the iWireless network. The Company does not operate its own web site, but its parent company, Van Buren Telephone Co., maintains a web site with basic information about its service offerings at [www.vbtelco.com](http://www.vbtelco.com). Because the Company lacks the personnel and resources necessary to maintain an extensive site (and because such resources are better used for extending service to rural and underserved areas), information about the Company's iWireless service and a complete list of handset offerings (including a click-box feature that allows customers to easily sort and identify hearing aid compatible devices) is provided at <http://www.iwireless.com/phones.asp>. An explanation of the HAC rating system, along with links to industry resources, a list of compliant devices and their compatibility ratings, a description of the Company's methodology for determining handset functionality and information on other wireless accessibility options for the deaf and hard of hearing are readily available to the public at [http://www.iwireless.com/customer\\_support-hearing\\_aid.asp](http://www.iwireless.com/customer_support-hearing_aid.asp). A direct link to this information is provided at <http://www.iwireless.com/phones.asp>. An explanation of the HAC rating system, along with links to wireless industry resources, a list of compliant devices and their compatibility ratings, a description of the company's methodology for determining handset functionality and information on other wireless accessibility options for the deaf and hard of hearing are readily available to the public at

## Consumer Outreach

Describe consumer outreach efforts in the past 12 months: The Company has instructed its sales staff about the availability of hearing-aid compatible phone models and it has wireless industry pamphlets available in its company store to provide information on the FCC requirements and HAC rating system. Additional information about hearing aid compatibility is available on the iWireless web site at [http://www.iwireless.com/customer\\_support-hearing\\_aid.asp](http://www.iwireless.com/customer_support-hearing_aid.asp).

## Methodology for Functionality Levels

Basic phones (entry-level devices offered for \$10 or less); Feature phones (devices with more advanced features and capabilities offered for more than \$10); and Smartphone/PDAs (devices that run complete operating system software as a platform for application developers).

## Report Remarks

Carrier may offer certain handsets that are capable of operating on more than one air interface. Carrier currently operates only on the GSM air interface. The Commission has made it clear that the HAC handset phase-in requirements specified in Section 20.19(c)(3) apply only "for each air interface it offers." Report and Order, 18 FCC Rcd 16753 (2003) at Para. 53. Moreover, these handset phase-in requirements are triggered only after a service provider has begun offering service using a particular air interface. Memorandum Opinion and Order, 22 FCC Rcd 7171 (2007) at Para. 60.

You have reported the following handset model summary information.

Total number of handsets offered: 63

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	Number	
GSM	34	54%	11	17%	18	29%		63
WCDMA	21	66%	7	22%	4	13%		32

1900 MHz GSM

#### Dates

This handset model was offered from: 08/12 to 12/13

#### Ratings

M-Rating: M3

T-Rating: T3

Did this handset meet the criteria for an M3 rating for operations over GSM at 1900 MHz by enabling the user optionally to reduce the maximum power at which the handset will operate by no more than 2.5 decibels, except for emergency calls to 911? N
